Professional Summary

Senior Mobile Developer with **10+ years of experience** building, optimizing, and deploying high-performance mobile applications for international clients across **iOS, Android**, and cross-platform ecosystems. Specialized in **Swift, SwiftUI, UIKit**, and **Flutter**, with strong expertise in scalable architecture, performance optimization, API integrations, and App Store/Play Store deployment. Proven track record delivering enterprise-grade applications across EV charging, VoIP, productivity, IoT, and business management domains while collaborating with distributed global teams.

Technical Skills

Mobile Development

- Swift
- SwiftUI
- UIKit
- Android
- Objective-C
- Kotlin
- Java
- Flutter
- Dart

Architecture & Engineering

- MVVM
- Clean Architecture
- Modular Architecture
- Design Patterns
- Code Reviews

Backend & Integrations

- REST APIs
- JSON
- Firebase
- Firestore
- Realtime Database
- SOAP APIs
- Third-Party SDK Integration

Tools & Platforms

- Xcode
- TestFlight
- Git
- Bitbucket
- CI/CD
- App Store Deployment
- Google Play Store Deployment
- Visual Studio
- Android Studio Code

Performance & Quality

- Performance Optimization
- Memory Management
- Crash Analysis

Professional Experience

Lead Mobile App Developer

Devmins Studio | Jan 2024 – Present | Remote

- Leading development of scalable iOS and Flutter applications for international clients.
- Architecting mobile solutions using Swift, SwiftUI, and Flutter.
- Managing App Store releases, performance optimization, and technical delivery.
- Collaborating with product, design, and engineering teams across multiple time zones.

iOS App Developer

XP Eats | Sep 2023 – Present | Remote

- Developed and maintained production-grade iOS applications.
- Integrated backend APIs, analytics, and third-party services.
- Improved application performance and user experience through continuous enhancements.
- Supported App Store deployment and release management.

Lead Mobile App Developer

App Technologies | Jan 2018 – Present | Lahore, Pakistan

- Led mobile engineering initiatives across enterprise and consumer applications.
- Established development workflows and architecture standards.
- Conducted code reviews and mentored development teams.
- Managed product releases, feature delivery, and application optimization.

iOS App Developer

CASHGATE INFORMATION TECHNOLOGY LLC | Nov 2024 – Jan 2025 | Remote

- Delivered iOS feature enhancements and performance improvements.
- Collaborated with distributed teams to ensure successful project delivery.

iOS Developer

Airdrop Limited | Jul 2023 – Aug 2023 | Remote

- Developed and optimized native iOS features.
- Supported product scaling and application improvements.

iOS Developer

Bitsclan IT Solutions | Jan 2023 – June 2023 | Remote

- Built and maintained iOS applications for US-based clients.
- Implemented API integrations and business logic.
- Delivered polished user experiences aligned with client requirements.

iOS Developer

Kurira | Jul 2022 – Nov 2022 | Remote

- Developed VoIP communication features for mobile applications.
- Focused on performance, reliability, and user experience.

Featured Projects

ZONZON ([App Link](#))

Community Networking Platform

- Built a community-focused social networking application.
- Implemented real-time messaging, community groups, events, and activity feeds.
- Enabled secure neighborhood engagement and social interaction.

Technology: Flutter, Dart

EOSVOLT ([App Link](#))

EV Charging Management Platform

- Developed a Flutter-based EV charging solution for drivers and fleet operators.
- Implemented charging session monitoring, navigation, payment processing, and fleet management.
- Delivered scalable architecture supporting future business growth.

Technology: Flutter, Dart

Kurira ([App Link](#))

International Calling Application

- Developed a VoIP-based calling application focused on international communication.
- Optimized call quality, routing efficiency, and user experience.

Technology: Flutter, Dart

Microbizz 3 ([App Link](#))

Workforce & Task Management Platform

- Developed an enterprise productivity platform for task, team, and resource management.
- Integrated scheduling, messaging, collaboration, and real-time synchronization features.

Technology: Swift, UIKit

Power Fuel ([App Link](#))

EV Charging Infrastructure Management System

- Built an iOS platform for monitoring and managing EV charging infrastructure.
- Implemented operational controls, dashboards, and enterprise management tools.

Technology: Swift, UIKit

EquiLoco ([App Link](#))

Equestrian Training & Management Platform

- Developed a platform connecting horse owners, riders, and trainers.
- Implemented training management, analytics, and communication tools.

Technology: Swift, UIKit

AeroGuard ([App Link](#))

Real-Time Air Quality Monitoring Application

- Developed an IoT-enabled environmental monitoring application.
- Implemented live air quality tracking, alerts, historical insights, and reporting.

Technology: Swift, UIKit

Education

Bachelor of Science in Information Technology (Computer Programming)

University of Education, Lahore

2013 – 2017
